#### COME UNTO ME

Tune,—Art thou weary?

Art thou weary, art thou languid, Art thou weary, art mou languid,
Art thou sore distrest?
"Come to Me," saith One, "and

Be at rest!"

Hath He marks to lead me to Hin, If He be my guide?

In His feet and hands are wound-prints prints And His side.

Hath He diadem as monarch That His brow adorns? Yea, a crown, in very surety, But of thorns!

If I find Him, if I follow, What my portion here?
Many a sorrow, many a labour,
Many a lear.

#### FOR ME. HE DIED

Tunes.-Will you go? B.B., 13, 7; B. L. 208, 2, 11, 3, 277, 2. Behold, behold the Lamb of God, On the Cross: On the Cross;
For us He shed His precious blood,
On the Cross;
Oh, you will still His love defy,

And all His grace and power deny, Draw near and see your Saviour die On the Cross: Where'er I go I'll tell the story
Of the Cross,
In nothing else my soul shall glory,
Save the Cross.
Yes, this my constant theme shall be

Through time and in eternity, That Icsus tasted death for me On the Cross

#### WE'LL BE HEROES

Tune.-We'll be heroes, B.J., 75 We'll be heroes, we'll be heroes,
When the battle is fierce,
When the raging storm louder grows
Will our courage increase, by the Cross,

We shall conquer, we shall conquer, Through the Blood of the Lamb, And we ne'er will retreat, though

#### IUNIORS ENROLLED

Lieut.-Colonel Taylor's Lectures Were Much Appreciated.

When Lieut,-Colouel C. Taylor arrived at Saskatoon, accompanied by Brigadier McLeau, on Saturday, June 19th, none of the Soldiers and June 19th, none of the Soldiers and comrades had any idea that such a good time was in store for them. The Colone's leethre entitled "Made in Canada," delivered on Saturday night, was highly appreciated by all who were privileged to hear it. His straightforward, heart-to-heart talk on Sunday morning gave us all a lift Haavenward. In the afternoon eight Juniors had the honour of being the first funiors enrolled by the Colone's the control of the control missioner Dowdle. This recital of a consecrated life, told in such an able manner, was a source of great help and inspiration,

The wet weather prevented us The wet weather prevented us gathering our usual good erowds, but God's presence was felt, and at the close of the night meeting all felt that the Colonel's visit had proved a great blessing. Our appreciation is hest expressed by saying: "Come again, Colonel." Adjutant Andrewy still leads us on, although expecting to farewell soon, and Captain Delamatar, who has been with us on special duty, farewelled, and leaves for a short rest with her par-

Sketch of a Cosmopolitan Career

Commissioner Sowton has lost nothing of the depth and quality of his fine voice. And it certainly seemed like old times to listen to his deeptainly seemed like old times to listen to his ucep-throated accents and rolling periods. The Commissioner was manifestly glad to be amongs old friends, and both showed and expressed his out trients, and both showed and expressed his deep appreciation of the kind things that had been said, and the kindness shown to hinself and family by Commissioner and Mrs. Richards, and also of the arrangements made in connection with the separation of the Territories.

#### SEVEN YEARS IN INDIA

The Commissioner gave some interesting facts concerning his seven years' service as Secretary for India and Ceylon under Commissioner Booth-Tucker, and said that he would not have been deprived of that experience for worlds. It was an interesting and invigorating speech.

On Sunday Commissioner and Mrs, Sowton conducted the morning meeting at Riverdale; and at night in the Temple. Good eongregations were present at both meetings. The Solders and friends were delighted to see and hear them, and triends were delighted to see and hear them, and the pressed their pleasure in an unmistakable manner. The addresses of Commissioner and Mrs, Sowton at each place were listened to with rapt attention and profit. There were sixteen seekers.

On Monday evening, by the 6 p.m. train, Commissioner Lamb and his Secretary, Ensign Simp-son; Commissioner and Mrs. Sowton and their son: Commissioner and Mrs. Sowton and men-family, left Toronto amidst the cheers and greet-ings of the Headquarters Staff for the Installa-tion Meetings at Winnipeg; a full account of which will appear in our next issue

#### THIRTY-TWO YEARS' SERVICE

Commissioner and Mrs. Sowton are not strangers to the bulk of Canadian Soldiers and friends, as during their ten-months' stay in Canada in 1908, they travelled extensively nevercanada in 1905, they travelled extensively, never-theless, the following facts concerning their career may be of interest at this time:— Commissioner Charles Sowton has been an

Commissioner Charles Sowton has been an Officer for thirty-two years, during which time he has held almost every Field position in The Army. His first foreign appointment was the Territorial Leadership of Norway, which had only heen opened nine months: them followed the Territorial Leadership of Deumark: the Chief Sowreat the Chief Sowreath of the Ch Chief Secretaryship of Sweden, under the com-mand successively of Commissioner Ridsdel and mand successively of Commissioner Riddel and Commissioner Oliphant: the oversight of the Seanthiavian Work in America; a second term as Territorial Commander in Demmark, where The Army had, of course, greatly grown; the Chief Secretaryship in Comda; and the Chief Secretaryship of India and Ceylon.

The Commissioner tells some excellent stories of the early battles against prejudice and mis-understanding. In Norway the opposition was particularly fierce, Salvationists being denounced as wolves in sheep's clothing, and the people being warned against them.

A certain chief of police, who was especially

embittered, openly declared that he would keep The Army out of his town. One method he adopted was to forbid any one to let the Salvationists a Hall.

tionists a Hall,
It so happened that this same chief of police
had a building site for sale in one of the most
commanding positions. Commissioner Sowtoh
demonstrated his astuteness by prevailing upon
a friendly builder in a neighbouring town to
parchase the site and erect thereon a building suitable for Salvation Army use. He hought it, the chief of police asking no questions, and

The police, who were then very hostile and almost all-powerful, made the Salvationists paylor police protection even when such protection was not neceded. At the same time they forbade them to take up collections in timer wretings or to change for entrance to them.

But," he continued with a merry twinkle, "I will shake hands with you all as you teave." He did so, and most of the members of the congregation who received the handshake placed a coin against the extended palm

A fact which may be said to contribute still further to Commissioner Sowton's fitness for advancing The General's scheme of development advancing The General's scheme of development and Mean is the Sistem of the Commissioner and the Commission of the Commission of the Commission of the Commission of the Commissioner and his capable wife are the tree and a half millions of those surely people. Now, the Commissioner and his capable wife are British born. For the past seven years, to be sure, they have largely been Indians, and they would as heartily become Koreans or Javanese or Zulis, if they were called upon to labour among such people. But if they are one thing among such people. But if they are one thing among such people. But if they are one thing missioner and Mrs. exect to being British. We are told that when Commissioner Sowton and his wife were the Territorial Leaders in Norway-where, by the way, they did o great deal to open up the country to our Work—they got so accustomed to the Norske that it became difficult for them to converse in English, and they were seldom taken for foreigners. It is an interesting fact that the Commissioner spoke the Norwegian language in six months. He became Acrosses an auguage in six monus. He became proficient by instructing his secretary, who was a native, to sit in his meetings, note down any mistakes he might make in his platform utterances, and tell him about them privately

#### HAPPY ANTICIPATIONS

It is therefore with the happlest feelings that he contemplates the Swedish Corps in Winnipeg, the city in which his new Headquarters is to be located, and he informs you with evident religh that five thousand Icelanders are to be found there. He forsees chances of opening numbers of other Scandinavian Corps up and down the Territory, and he may be safely trusted not to be these chances eliminated to the theory let those chances slip.

Commissioner Sowton believes in being as much as possible in the firing line himself, and he expects to do a great amount of travelling in

tab. West.

"I don't like to be tied to the desk—that part is necessary certainly: but the sight which charms me most is that of a sinner at the Cross, be he British, Scandinavian, or Hindu. My principle is to get about as much as possible among the people, and take my office-with me."

In that case Canada is to be congratulated on its Leaders, for we have seldom, if ever, met a Leader who has a greater mileage to his eredit than Commissioner Richards, of the Canada

The Brigadler then called one Bandmaster Kobb, of No. I.V., to our Bandmaster Robb, of No. IV., to speak, and pointed out that he (Bandmaster Robh) was once a Bandsman of No. I, also that he was only one of the Bandmasters that had graduated from No. I, referring to his son (Bandmaster Rawling of Verdun) as another. Deputy Bandmaster MacMillan, who had been a member of the late Staff Band, said he hoped the Bandsstan Band, said he noped the Bands-men of Montreal L., on looking back in years to come, would have such good reminiscences of the times had in the new Bandroom as he had of the times the late Staff Band had in their Bandroom. After several Bandsmen had been called on, Brigadier MacMillan was asked to say a few words. He appealed to each Bandsman to play every note with an eye single to the honour and glory of God and the saving of souls.

The Bandmaster was then called upon, and for some moments could not speak, so hearly was the applause given him by the Bandsmen, who unanimously congratulated him on his appointment. He said that in accepting his commission he could see nothing before him but earnest prayer, hard work, and self-sacrifice. Busy Week for Officers

Captain and Mrs. John Smith, of Southwick (England) had a busy week recently. They bruke the sad news to three women that their hushands had been "killed in action," conducted three funerals, dedicated two children, got a soldier sent home on leave from France to visit his dy-ing father, and another, a young man, sent home from the trenches so that be could get married, and visited four homes where death had been, and sixteen others where there

The Captain also gave an address
to the soldiers in camp, and gave
much time to filling up forms for dependants of soldiers, giving advice to friends, writing about missing soldiers, and taking widows of soldiers to magistrates to have the

necessary pension forms filled up.
This is typical of the work now being done by numbers of our Officers in Britain at the present time,

#### BOLD PRAYING

EOLD PRAYING

"Let us, therefore, come boldly unto the Throne of Grace, that we may obtain mercy, and find grace to help in time of need." —Heb. 4:16.

The Epistle to the Hebrews is full of arguments based on their history, Just hefore our text the mind of the writer has recurred to the Temple worship. He remembers the clabulation of the training times when their high Priest entered into the immediate presence of the sanctuary, and the solemn waiting times when their High Priest entered into the immediate presence of God, for them. How holdly the Is-raelite offered his prayers at such

times,

It is, then, a clear and simple
mode of presenting truth when he
represents our bissed Lord as the
High Pricat passing into the heavens to make intercession for us.
For a moment he digresse to dwell

makes his point: "Let us, therefore,
come boldly," etc.

doubtedly due to the fact that the Medical Officer in charge has had several years' experience as a Missionary, as well as a doctor, and is supported by a staff of assistants and nurses, who are also Missionaries, or, as we say in The Salvation Army, Missionary Officers. Thus it is possible to maintain the standard we aim at with a certain degree of success. That is, the best help and attention is available for the poor-

### The New Territory

In The General's "Notes and Reflections" will be found a very important statement concerning the formation of the new Command to he known as Canada West: the new Leader Commissioner Sowton, has also chatted to our representative in a very informing manner concerning the new Territory. From these two sources we gather something of the high hopes that are entertained by International Headquarters with respect to the future of British North America. European military cataclysms and political convulsions may retard, but nothing but a shifting of the world on its axis and a return of glacial conditions could prevent those great fertile plains from being the dwelling-places of countless thousands of human be-

ings, and from being an illimitable field for Salvation Army enterprise. But whatever the future may hold the recent development of the Westof this age, and so far as The Salva-tion Army is concerned, perhaps, the rulers of no other States have shown such confidence in, and availed themselves so fully of, The Salvathemselves so fully ot, the parva-tion Army's activities for the well-being of women and children as those who rule the North-West Provinces. It is, therefore, good that an Officer possessing the experience, and capacity for affairs of a Territorial Commissioner should be within relatively easy dis tance of the capital cities of these

It is also good that the inspiring presence and words of a Territorial ommissioner should be brought to bear upon Field Officers and forces more frequently than can possibly be the case when one man has to cover the immense distances that lie between the Atlantic and that lie between the Atlantic and the Pacific. There is, therefore, no doubt, but that the intensive over-sight which the West will now re-ceive will hasten Salvation Army development. At any rate, states-men and men of affairs have given the plan their approval.

No think that Commissioner and Mrs. Sowton are well calculated to do a good work in Canada West, do a good work in Canada West. Their ready acceptance by the com-rades and friends, their knowledge of the Scandinavian peoples, and their previous experience in Canada, well qualify them for dealing with oblems that arise in a somewhat Cosmopolitan country like the North-West. ## COMMISSIONER SOWTON

Talks to an Interviewer Concerning His Command

A VISIT TO H.R.H. THE GOVERNOR-GENERAL

OMMISSIONER SOW-TON had just returned from Ottawa, when a "War Cry" representative met him and in reply to the interviewer's question as to the nature of the business that had taken him and the Interna tional Secretary to the Federal Capital said:-

UThere were several important matters dealt with but perhaps one of the most important, certainly the most interesting, was the reception of Mrs. Sowton and myself by His Royal Highness the Duke of Connaught. The Governor-General had been informed that the new Leaders of The Salvation Army in Western Canada had arrived in the Dominion and he had graciously expressed his pleasure to receive us: so Commissioner Lamb the International Secretary, who seems to be intimate with most in Canada who occurs the seats of the mighty, and had met the Governor-General on two or three previous occasions, went with us and introduced us to His Royal Highness.

"We had a most cordial interview of perhaps half an hour's duration on The Salvation Army, the countries I had been in and our administrative development in the West which, by the way, he thought was a very wise proceeding. The Duke evinced warm interest in the fact that I had done service in Denmark and Norway, and that I had just returned from India, chatting most pleasantly about that Empire It was the first time that I had met His Royal Highness, and, judging from his remarks about The Salvation Army. I feel sure that he has a high regard for its usefulness, and takes great interest in its welfare.

The General is promoting a Bill for the incornoration of the Western Territory, and while in Ottawa we called upon the Hon, Mr. Meighan, the Solicitor-General for the Dominion. We found that the progress of the Bill is proceeding satisfactorily, which is all to the good for the senaration of the East and West is now so absolute that a new Acr of Parliament will be necessary to incorporate the West.

We also ealled upon the Hen. Mr. W. T. White, Acting Premier, and paid our respects to Sir Wilfrid Laurier, both of whom were greatly interested in what we had to say about the separation of the West, and commended the policy Lady Laurier most kindly invited us to take tea with her on the verandah. I was greatly impressed with the respeet shown to us as Salvation Army

must feel something like a personal debt of gratitude to President Wilson and the Government of the United States for the high-minded and eloquent protest contained in their two Notes to the German Government against the destruction of the Lusitania. The President's message contains no passionate calls for vengeance for that appalling crime against us alt. He makes no material demands and utters no threatening words, as if the wrong were merely a wrong against his ow-countrymen. His appeal is on higher plane than that. He rests his earnest and solemn warning on nothing less than the high and sacred rights of humanity itself, and brushing aside all lesser questions as between one nation and another, he claims that the law under which all men live demands that such deeds must cease. I look upon this as an event of profound import-ance for the world. I hope most earnestly that it will produce an immediate effect on the conduct of this war. But whether it does or not, it is an event of wide significance which must exercise a far-

Wilson's Cabinet is not from any sympathy with the methods of the German military authorities, nor from the least unfriendliness to the Reirish or Russian peoples. But he believes that all war is wrong, and he wants to lead his own nation away from it for ever. However mistaken we may think him in his present action, we must all honour his purpose.

One of our Officers, an Adjutant in command of an important Corps, in writing to thank me for "The War Cry" protest against the abominable attacks on innocent and law-abiding foreigners residing in this country, gives me the following interesting incident an incident showing the spirit of Christ working after a practical fashion:

"A firm near by had in their em-ploy five men of German nationality. At the outbreak of the war the Eng-At the outbreak of the war the Eng-lishmen raised a petition and pre-sented it to the manager for the dis-charge of these men, which they finally seemend

"He pleaded with the men as he ad done with the manager, and had done with the manager, and told them that by getting these men discharged they were doing a simi-lar thing to that of which they were accusing the Germans. He natur-ally had great opposition, but he fought for them and secured the signatures of ninety per cent, of his fellow-workinen, and the five men were asked to come back the next

Among the questions put to me in reference to the national emergency and the responsibility of those parents whose sons look to them for guidance at this time, none has given me more perplexing anxiety than that set out in the following extracts from a letter signed "A Mother," and already published in one of the papers. Thousands of mothers and fathers in the land today already feel that there are for their boys far worse things than death! When will the Rulers of the Nation dare to protect us from this monstrous iniquity-a more deadly foe of our people, Mr. Lloyd George has said, than the German armies?

"And now, sir, after much prayer for guidanee, I am led to open my heart to ynu on a matter that has been troubling me for some time. My husband died four months ago. My husband died four months ago. "I have discussed this matter with many mothers, thoughtful, earnest women, and we all agree that while women, and we all agree that while we are willing to give our sons to our King and country, we tremble at the unnecessary temptations that surround them while in training. The beer flows like water in the canteens, and hundreds of boys who left home sober and clean-living are to-day neither one nor the other, because the drink habit has taken

I am also receiving similar offers from some of our own neonle belonging to neutral countries. They feel that in this way they can help to spread the Salvation of God and that their nations ality may make them acceptable to all the contending parties. Whatever may be the result of my proposal, I am glad that I have made it, if only because it has revealed a unity of desire to undertake work for our God which involves suffering and danger.

Once again I desire to call all who love God to prayer that this awful war may be brought to an end. I know that it is not easy at such times to give ourselves to prayer. The exaggerated nervous excitement of the passing days makes great difficulty in the way of prayer at the very moment when it is most needed. Those who would seek the will of God must learn to rest in the love and wisdom of God. Alarms of war, the conflicting reports of gains and losses, of defeat and victory, the agitation fostered by this party of that are all opposed to the which waits on the Almighty I of the Living God. Let us, the fore, watch! Let us call to min the need to join habits of prayer with tranquility of heart and mind before our Lord, and let us come boldly into His presence and make: known to Him our requests. He will not fail us.

We wanted certain information to guide us in preparing "The War-Gry" for the diverse tastes of the tens of thousands who read, and sent out a list of questions to the sent out a list of questions to the Field Officers. They answered them with splendid prompitinde. In: a careless moment we inserted this question: "What would you do to improve "The Cry' if you were appointed Editor?" These are some of the realist: of the replies:-

#### Bouquets

"The War Cry has undergone many changes of late, and all for the best, and in my estimation you could still improve it by keeping the Soldiers posted as to where the Of-ficers are stationed; that is, keeping a column of 'The Cry' for appoint-
